Calling all 4-H Alberta Club Reporters

What an unusual year 2020 has been, but we are glad to be back working with you and preparing for an exciting and action-packed new club year.

We are also currently working on 4-H Alberta's first annual report. The annual report will provide our stakeholders with a variety of important and exciting updates such as: the 'new 4-H Alberta', how members and leaders successfully navigated COVID-19, what we have planned for 2020/2021 club year, and much more.

But we don't want to do it all alone; we also want our members to have a voice, and so we are asking you, our talented and spirited club reporter to provide content!

We are looking for funny, thoughtful, inspiring, and thought-provoking stories and articles (don't forget pictures!!) around the following topics:

- How have I made a positive impact in my community during COVID-19?
- What are my goals for the 2020/2021 club year?
- My agriculture and food production related project
- A day in life of a 4-H'er
- The top 5 things I like about 4-H as a Cleaver Kid

Interview your fellow club members, your family, or friends, and send us your content no later than November 30, 2020. The best part: the top five (5) entries will not just have their articles published, they will also receive a cash prize!!

Guidelines are as follows:

- Content deadline: November 30, 2020
- Topics: choose one of the topics outlined above
- Wordcount: approx. 300 - 350 words
- Images: two or three high resolution images
- Submit your content to: Karina Altvater at karina.altvater@4hab.com

Club Registration Continues! Here's how to...

Welcome to the 2020/21 club year! In many ways, this is a different year than others, but 4-H club registration hasn't changed, and help is available if needed.

The following are a few tips to help you breeze through club registration!

Each General Leader and Club Registrar will have received an email that includes their **username** and **password** to register their club. Both your username and password are unique to you and also allows you access to edit your profile in the 4-H online registration system. Please, never use another person's username and password or allow another to use yours. If you are new to the position of General Leader and/or Club Registrar, please contact the 4-H Registrar at registrar@4hab.com.

At the first gathering of your club, hand out the 4-H Alberta **Youth** and **Adult** Registration Forms (click on "youth" and "adult" to link to the forms). These forms and the **Club Registration Checklist** were also included in the email to the general leader and/or club registrar. The forms are available on **4-H Alberta's website** home page and are also available, along with a host of other great downloads, at www.4hab.com/downloads (see Club Operational Tools). Please have your club's participants (members, clever kids, leaders, volunteers) complete the form(s) and return them to you.

Visit www.4habregistration.ca to access the Online Registration System. Your 4-H Area Coordinator and the 4-H Registrar are also available to help you through the online registration process. The **General Leader's Tip Sheet** may assist you, but please note that it needs a few updates, which we hope will be in place by the time you read this! *4-H on!*

Radicle's Carbon Credit Donation Program with 4-H Alberta

Radicle, formerly known as Carbon Credit Solutions Inc. (CCSI), has been equipping farmers and landowners across Alberta with the ability to donate to 4-H Alberta this year easily. This is being achieved by farmers donating any percentage of their revenue from the carbon credits they generate through Radicle.

RADICLE

Dozens of farmers have already capitalized on this opportunity to support the community, providing thousands of dollars to 4-H Alberta to run programs. Radicle would like to thank all the farmers and landowners who have generously donated their carbon credit money to support 4-H Alberta!

Farmers generate carbon credits by practicing no or low-till farming, which traps carbon dioxide in the soil, helping to mitigate agriculture's impact on climate change. One carbon credit represents a one-tonne reduction of greenhouse gas (GHG) emissions expressed in CO₂e. At Radicle, we create carbon credits for farmers who direct seed annual crops, and we register and sell those credits in the carbon market. Carbon markets stimulate innovation and economic activity by rewarding companies and individuals who do environmental good, allowing them to make money by reducing greenhouse gas emissions. On the other hand, carbon taxes are punitive programs intended to change behaviour, imposed by governments who add it to the cost of products like gasoline.

If you're sequestering carbon in the soil by practicing low or no-till farming in Alberta, you may be eligible to generate carbon credits. To determine your eligibility or if you want to learn more, visit radiclebalance.com/4-h-alberta.

Thank You

We would like to express our sincerest appreciation to our partners and supporters for their continued investment and support.

Thank You! We could not provide first-class youth programs without your help!
