

4-H Alberta

Logo Guidelines

Logo Colour Variations

The 4-H Alberta logo should be reproduced in colour whenever possible, using Pantone® 7739 C. White is the most effective background for the colour logo because it provides a clean, crisp contrast for the logo's colour and elements.

If colour reproduction is not possible, please refer to the alternative one-colour versions below. When the 4-H Alberta logo is placed on a photo, the image behind the logo must be light enough to provide contrast for the positive logo or dark enough to provide contrast for the reverse logo. The photo should also not have too many distractions behind the logo that would interfere with its clarity.

Logo Elements & Clear Space

To create the greatest visual impact, the 4-H Canada logo must be surrounded by a minimum clear space. No text or graphics are to enter into that protected area. A space equivalent to the height of the "H" must be maintained around the logo, on all four sides.

4-H Clubs & Regions

- Full club name appears above the clover, in the same colour as the clover.
- "4-H" is optional in club names.
- The Canada and Province lines are the "organization identifier" and may not be changed.
- Town/City not included if absent from club name.
- Club names should appear in Gotham Book font.
- Some club names are very long and must be stacked to two (or three) lines. Club width should not be wider than the clover plus the height of the "H" on either side.
- "Canada" always appears below the clover.
- "Alberta" always appears below "Canada"

Typography

Main fonts

In print applications, the 4-H visual identity uses two typefaces: Clarendon and Whitney. Clarendon Bold is used for some display copy such as headlines and branding elements such as the 4-H Canada tagline; please refrain from using it for body copy. Whitney is the preferred typeface for body copy.
